The year 2002 could probably be described as "the best of times, and the worst of times." One level, Korean cinema continued its breathtaking run of popularity with local audiences, winning over a 45.2% market share in Seoul, only slightly lower than the 46.1% recorded in 2001 (market share in Korea as a whole was likely higher, but harder to measure).

I'm a bit drunk at the moment, and it was rather interesting and funny to me, and I thought some of you would enjoy this, so here it is. I'm Korean-American, and for around the past 2 decades or so, there's been this expression called "금강 시절," which means "during my prime," "golden age," almost always used by women who use it as "during the height of my beauty," etc...

Introduction. Ageing is a process in which both intrinsic and extrinsic determinants lead progressively to a loss of structural integrity and physiological function []. Intrinsic ageing of the skin occurs inevitably as a natural consequence of physiological changes over time at variable yet inalterable genetically determined rates []. Extrinsic factors are, to varying degrees, controllable and ...
