Crump's Bullies - Blue Pitbull

The western toad (*Anaxyrus boreas*, formerly *Bufo boreas*) is a large toad species, between 5.6 and 13 cm (2.2 and 5.1 in) long, native to western North America. *A. boreas* is frequently encountered during the wet season on roads, or near water at other times. When handled adults often vocalize, making a sound like a peeping chick while struggling. It eats any type of insect it can catch.

This post was triggered by someone reaching here with the search "What is inside peach seeds that's poison". I almost decided to laugh about it like on all other silly search phrases leading here, but then figured I should at least check if maybe it's not silly.. And it turns out that peach seeds actually contain Cyanide, in the form of Amygdalin.

How poisonous are peach seeds? -- [Ordinary Nothing]

The Monsanto Company (/ m ɒ n ' s æ n t ɒ s /) was an American agrochemical and agricultural biotechnology corporation founded in 1901. In 2018, it was acquired by Bayer as part of its crop science division. It was headquartered in Creve Coeur, Missouri. Monsanto developed Roundup, a glyphosate-based herbicide, in the 1970s, and became a major producer of genetically engineered crops.

The Molecular Expressions website features hundreds of photomicrographs (photographs through the microscope) of everything from superconductors, gemstones, and high-tech materials to ice cream and beer.

Molecular Expressions: Images from the Microscope

We begin America Unearthed S01E03 "Great Lakes Copper Heist" with a recreation of some woodsmen felling a tree in Michigan in 1896, filmed in dramatic "old-timey" sepia tone. (Actually, I think it was tinted in post-production from full-color digital video.) The men look at a rock covered in symbols, and we smash-cut to the opening credits.

Review of America Unearthed S01E03: "Great Lakes Copper ...

Bananas are produced in large quantities in tropical and subtropical areas. World production of *Musa* in 2003 was estimated at 102 million MT of which about 68% was classified as bananas and 32% as plantains (). The crop is of major importance to the people in the growing areas as it forms a major portion of the annual income and a source of food.
