Ophthalmic Fundamentals Glaucoma

A fine example of this was laid out in a fascinating 1991 paper on the use of scales. 5 Using the example of a lens opacity grading system, the authors had two graders score 87 lenses. Instead of using the 0 to 4 scale, they broke down the scale into finer granularity, with each integer divided into nine decimals, such as 2.1, 2.2,..., 2.9, etc.
