### **The Of The Long Sun**

The Book of the Long Sun (1993–1996) is a series of four science fantasy novels or one four-volume novel by the American author Gene Wolfe. It is set in the same universe as The Book of the New Sun series that Wolfe inaugurated in 1980, and the Internet Science Fiction Database catalogs them both as sub-series of the "Solar Cycle", along with other writings.

"The Long Rain" is a science fiction short story by American writer Ray Bradbury. This story was originally published in 1950 as "Death-by-Rain" in the magazine Planet Stories, and then in the collection The Illustrated Man. The story tells of four men who have crashed on a planet where it is always raining.

The sun is a ball of hydrogen so big that the gravitational pressure at the center strips electrons from the hydrogen atoms and pushes the protons so tightly together that they stick to each other. The "sticking" eventually creates helium and also releases energy in the form of gamma-ray photons. Those photons ...
